ROOFING, SIDING, THERMAL & MOISTURE PROTECTION

VERSATILE & ENERGY-EFFICIENT EPS

\$ | G | NEW

Insulfoam

▲ Insulfoam, one of the most respected names in polystyrene-based construction products, offers versatile, energy-efficient, expanded polystyrene (EPS) insulation through their InsulFoam® and R-Tech® brands. All InsulFoam products are 100% recyclable and are manufactured using post-consumer and post-industrial materials. The products provide long-term stable R-values and are ENERGY STAR qualified and can also contribute toward LEED credit requirements.

ROOFING, SIDING, THERMAL & MOISTURE PROTECTION

LIGHTWEIGHT ROCK FACE SIDING SYSTEM

\$ | G

NextStone

▲ Polyurethane rock facade panels, ledgers, trim, corners, post and column wraps, caps, and mailboxes

Performance Data:

- Durable—weather-tested coatings provide UV protection and resist the elements
- Lightweight—1-lb.psf. Req. no caulking, cuts with standard saw blade
- Installs with screws or glue. Tongue and groove ship lap hides all fasteners.
- Increases wall insulation R-value. A “built green” product.

SPECIALTY PRODUCTS

HIGH-PERFORMANCE INSULATED SHADE

G

Window Quilt

▲ The best new window wastes twice as much energy as an old window with a window quilt.

Performance Data:

- 30% residential tax credit certification available
- R-value on single glazed is 5.88—Conduction losses reduced 85%
- Air infiltration reduced by 63%
- Convection currents and drafts eliminated. Rooms are comfortable at 5° lower thermostat setting with covered windows. Building losses reduced 12%.
- Allows full solar gain in winter, 99.5% blocked in summer
