

ecoeffects[®]

At Roppe, we've consciously chosen to be part of the solution. That means we're not just committed to making better products – we're dedicated to making a positive impact on the environment as well. Our "green" products meet high environmental standards and may contribute to the U.S. Green Building Council's LEED[®] Green Building Certification System.

From tiles and treads to wall base and adhesives, our EcoEffects[®] products meet high environmental standards without compromising color selection, performance, durability or style.
