

**PELLA ADVANTAGE NUMBER 84:**

WE'VE ANSWERED THE CALL.

Looking for the ideal windows and doors for your BIM projects? You've found the right match. Pella's Autodesk® Revit® families are now available for use with Revit® Architecture. You can access the Pella® product of your choice right from your Revit® design application by using the Autodesk Seek web service — then simply drag-and-drop it into your BIM project. The perfect partner dedicated to making your models more accurate and easier to create. That's **The Power Of Yellow.®**

Visit [pellacommercial.com/BIM](http://pellacommercial.com/BIM) for all your BIM window and door needs.

Pella Revit® families also available at [seek.autodesk.com](http://seek.autodesk.com) and [caddetails.com](http://caddetails.com).
