

From concept to completion

A green roof is about more than just being "green"; its success also depends on keeping the building dry. American Hydrotech's Garden Roof® Assembly is setting the standard by which all other green roofs are measured and our Monolithic Membrane 6125® is the key. MM6125® was developed specifically for wet environments and is a seamless membrane that is bonded directly to the substrate. It's the perfect choice for a green roof and the only one Hydrotech recommends for a Garden Roof Assembly.

Additionally, our Total Assembly Warranty provides owners with single source responsibility from the deck up. This is a warranty that only American Hydrotech can offer, and peace of mind that only American Hydrotech can provide.

To learn more about the Garden Roof Assembly, please call **800.877.6125** or visit us online at **www.hydrotechusa.com**.

*Experience matters!
American Hydrotech's
Garden Roof Assemblies
have been installed for
the past 12 years on
over 1,200 structures on
covering more than
5,500,000 SF worldwide.*
