# HELPING YOU SEE THE LIGHT.

## Pilkington Profilit™

By leveraging the idea of daylighting - using natural light to illuminate a space and reducing dependence on artificial lighting - you can build green without sacrificing beauty or creativity. Pilkington Profilit™, a translucent channel glass system from Technical Glass Products, helps create stunning structures while enabling architects to embrace the advantages of daylighting. Pilkington Profilit is available with insulating options that result in heating and cooling efficiencies. So when you're thinking green, think about how we can help you bring those ideas to light.
