

We think about the forests behind our wood products so you don't have to.

The demand for diverse products from sustainably managed forests is met each and every day by the capability and technology of British Columbia's forest sector. We pride ourselves on regenerating harvested areas, a commitment to legal logging and the enforcement of tough regulations, welcoming outside scrutiny of our practices, participating in recovery and recycling, and promoting carbon neutrality across the value chain. Our dedication lies in the promise that today's quality wood products won't come at the expense of tomorrow's forests.
